Foy's Ltd.

Introductory

The unsettled state of the market at the present time in relation both to imports as well as locally manufactured goods makes the publication of a general Furnishing Catalogue practically out of the question.

For the convenience of those about to furnish or renovate their homes, however, Mark Foy's give a few suggestions in the illustrations contained in this booklet.

It is generally recognised throughout the trade that Foy's well-selected stocks of Furniture compare more than favourably with other displays being made in the City, combining, as they do, the maximum of good workmanship and elegance of design with the minimum of cost to the public.

Mark Foy's are actual manufacturers and direct importers, and claim to be able to give buyers the best possible value in the City, the designs being right up to the moment.

A visit of inspection will be welcomed, when the staff will give every assistance in the way of simplifying the problem of present-day furnishing.
